

Modern Bus Terminal at Ainthapali

D r e a m g o i n g t o b e T r u e

The Modern Bus Terminus at Ainthapali a “dream project” of the city is going to be operational very shortly.

The objective of the Bus Terminal at Ainthapali is to provide modern and state of art & facilities, night time parking, resting accommodation to the operating staff, space for city bus parking etc.

The Terminal when completed will be equipped with 66 bus bays meant for running bus, City bus, Private bus etc with civic facilities like electricity supply with power back up, lighting fixtures, passenger information system, water supply, drainage and efficient solid waste disposal system.

The Terminal will also be provided with advance tracking system with automated toll, signage, digital screens, sound systems and CCTV camera. There will also be commercial space for shops, Kiosks, Restaurants with cafe and open air space along with provision for two wheeler/ three wheeler /auto parking. The bus terminus will be operated/ maintained on PPP mode.
