

Beautification of Ring Road-Sambalpur Municipal Corporation

The 'Ring Road' encircles the heart of Sambalpur Town. For some weeks now, there has been serious plan for beautification of ring road along the river Mahanadi shall be done for a length of 4 Kms approximately from the New Bridge approach road up to Mandlia Chowk of Sambalpur Municipal Corporation area. The work that we have been expecting (Beautification), and the work that most of us know will put glamour in the face of the City which deserves the best in all ramifications. Some part has been challenges with flood coming out with unimaginable look, where grasses and flowers will surrounds the King square, trees will be planted to protect our environment and add value to city. It should be recalled that beautification of the state is part of the plans of the State Government especially around the Ring road area which is the Eye of the city. In ensuring this task, it will be funded by Government of Odisha. At the moment, attention, infact maximum attention is been given to Ring road area. The survey has completed and the plan and design of DPR is in progress.

THE SCOPE OF WORK:

The Consultant shall prepare innovative, aesthetic, state of art design which would be eco-friendly, structurally safe & durable for at least 20 year for Beautification of **river side on the Mahanadi along the ring road for a length of 4 KMs** approximately within the amount up to **3.00 crores.**

- Development of path way
- Beautification of existing retaining wall
- Development of river view points in regular interval with sit-out
- Beautification & development of existing Ghats
- Landscaping , Plantation & designed planter box
- Lighting arrangements (Electrification scheme shall cover all power connection, Switch rooms, site illumination, power / lighting distribution up to work table, all requirements related to lightings layout etc)
- Fixing of ornamental grills
- Fountain
- Water supply systems (Water supply scheme shall cover water connections, storage tank, pumping arrangement and pipeline connections.)

- Designed garbage bin
- Any other innovative & decorative items

Changes are painful but if necessary, let's try to adapt. Some times in life, when we see innovation, it is difficult to believe that it's a timely innovation until when the dividend becomes "visible". In few months from now, people will find it difficult to believe that this is the same place in the city or not? Where they can find flowers, grasses, trees and all gadgets to bring the real beauty.

Ring Road beautification plan in sambalpur city which is undergoing is a positive transformation we are hopeful it would be one of the best project in the beautification of the city. So what do you think of this beautification?

View of view point –

This view showing how an observer will see the Mahanadi river , while standing in view point/ sitting in sit out .

View of view point –

This view showing the pathway along the river side of Mahanadi, which is accessible from every view point .

Birds eye view of View point

This view showing Primary river view point providing commercial space for kiosk, with temporary sit-out.

Conceptual view of View point

This view showing how an observer will see the road from the provided sitting arrangement. An interesting fountain is provided at the focal point, which create an aesthetic look and enjoyable to the visitors.
